

The Friends of Christ Church, Eaton 2026 Project

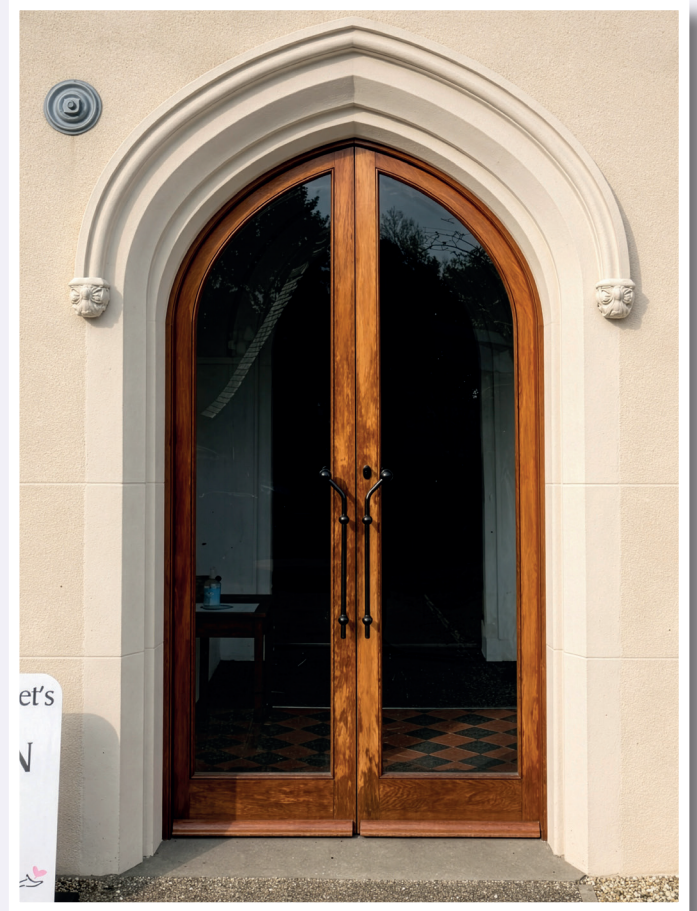

Our 2026 project is the installation of a new glass inner door at the main entrance to the church at the West End.

This work is needed because, despite extensive remedial work, the existing door fittings are a compromise between the strength of a newly installed closer and the degree of warp which has occurred within the doorframe.

The choice of this project follows visits by our church architect and churchwardens to several local churches to explore the best solution for Christ Church.

The new glass inner door will deliver a solution which is both visually attractive and draught excluding.

If you would like to help fund our 2026 project you can do so by making a donation, either by cheque (payable to 'Eaton, Christ Church PCC') and sending it to the Parishes' Office at 41 Church Lane, NR4 6NW marked "Friends of Christ Church – 2026 Project" or by BACS to Account Name: Eaton Christ Church PCC, Sort Code 20-62-53, Account No: 53731987 with the same reference.
